-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 02 March 2005.
- 2a) ☐ This action is **FINAL**.                      2b) ☐ This action is non-final.
- 3) ☒ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Specification***

1. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

2. The abstract of the disclosure is objected to because "said" on line 9 and 10 should be deleted.

Correction is required. See MPEP § 608.01(b).

### ***Claim Objections***

3. Claims 1, 24, 25, 26 and 29 are objected to because of the following informalities:

- a) Regarding claim 1, line 7, please change: "said received signals" to – the received signals --, in order to avoid Lack of Antecedent Basis.
- b) Regarding claim 1, line 8, please change: "said plurality of receiving signals" to – the plurality of receiving signals --, in order to avoid Lack of Antecedent Basis.

- c) Regarding claim 1, line 18, please change: "said qualified assessing value" to – the qualified assessing value --, in order to avoid Lack of Antecedent Basis.
- d) Regarding claim 24, line 15, please change: "said qualified assessing value" to – the qualified assessing value --, in order to avoid Lack of Antecedent Basis.
- e) Regarding claim 25, line 9, please change: "said plurality of receiving signals" to – the plurality of receiving signals --, in order to avoid Lack of Antecedent Basis.
- f) Regarding claim 25, line 31, please change: "said qualified assessing value" to – the qualified assessing value --, in order to avoid Lack of Antecedent Basis.
- g) Regarding claim 26, line 9, please change: "said plurality of receiving signals" to – the plurality of receiving signals --, in order to avoid Lack of Antecedent Basis.
- h) Regarding claim 26, line 15, please change: "said qualified assessing value" to – the qualified assessing value --, in order to avoid Lack of Antecedent Basis.
- i) Regarding claim 29 line 9, please change: "said received signal packet" to – the received signal packet --, in order to avoid Lack of Antecedent Basis.

Appropriate correction is required.

*Remark:* Examiner suggest Applicant review all claims thoroughly for informalities.

***Allowable Subject Matter***

- 4. Claims 1-22, 24-26 and 29-33 would be allowable if rewritten to overcome the objections, set forth in this Office action.

The following is a statement of reasons for the indication of allowable subject matter: None of the prior art teaches or suggests a channel quality system receiving a

plurality of groups having a plurality of channels, a frequency synthesizer for providing a continuous sinusoidal frequency signal, a mixer having an input of an RF signal and the continuous sinusoidal frequency signal and outputting a signal packet, a channel interference detector for detecting interference response to received signal packet, and a grouping/channel quality assessment unit for grouping channels, wherein if a quality assessing value of a first selective group is not within a predetermined range, the first group is an unqualified group, if a second selective group is overlapped with unqualified group, a size of unqualified group is smaller than that selective group, then overlapping channels between unqualified group and second selective group are disabled in second selective group, the sized of second selective group being reduced by the number of overlapping channels.
